

Grass shield installation sheet

- 1 – Remove the old grass shield / seal surface from the opener.
- 2 – Insert the grass shield tool into the opener as per photo.
- 3 – Slide on spacer washer and new grass shield onto the tool.
- 4 – Slide push block washer onto tool and allow it to seat itself into grass shield.
- 5 – Thread nut onto tool and tighten to pull washer and grass shield tight up against opener.
- 6 – Loosen the nut and remove the tool.
- 7 – Install new seal and rub a small amount of grease on seal.
